Models AN-E and ADN-E

Model C724L-E

## Automatic Numbering Machines

### AN-E, ADN-E Numbering Machines

Wherever sequential numbering is required:

- Invoices, bills of lading, purchase orders.
- Stock receipts, court documents, payment vouchers
- Insurance claim processing
- Police department telephone complaints
- Bank passbooks, license control

These rugged, electronically actuated machines are designed to solve the widest possible range of sequential numbering problems. In operation, Rapidprint numbering machines stamp a number each time a document or form is inserted, then advance the number automatically with each imprint.

Simply insert the form or document. Instantaneously you get an accurate number registration. New electronic components incorporated in this new model assures you superior performance and reliability.

### All-Purpose Time/Date/Number Recorder (Model C724)

The stamping unit that provides maximum versatility—of operation and of print option arrangements for:

- Invoices
- Purchase orders
- Receipts such as claim numbers for insurance companies, or "promise" dates for photo shops
- Communication centers
- Hospital labs

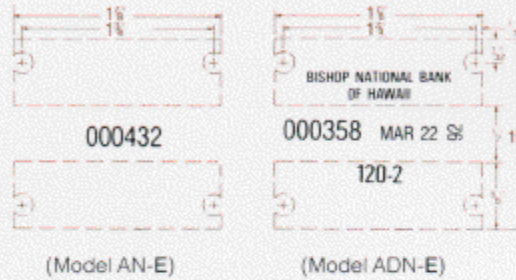

This unit is so versatile that its date/time and numbering sections can accommodate virtually any printing head in the Rapidprint series. An almost unlimited choice of wheel arrangements is possible.

Model C724 prints a 6-digit number on the same line as the date and time. Die plates are available to provide additional printed matter above and/or below both the number and the date and time. Time and day of month advance automatically. Numbers advance consecutively and automatically each time a print is made.

Model C724L-E is the same as the C724, but incorporates an attractive, easily read digital clock.

sample impressions (reduced)

(Shown with fixed brass die plate engraving area.)

**Model AN-E**

(ADN-E with manually set date section)

Size: H-7<sup>11</sup>/<sub>16</sub>" W-4<sup>11</sup>/<sub>16</sub>" D-10<sup>13</sup>/<sub>16</sub>"

Weight: 16 lbs.

Finish: Taupe Hammertone

Power: 115 VAC, 60 Hz

Throat Depth (edge of paper to top of printed number):

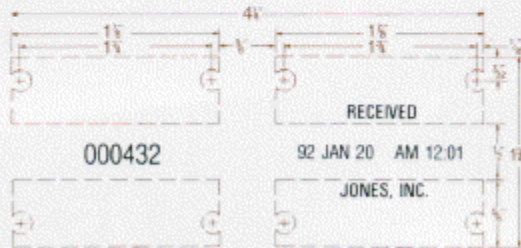

Standard 1<sup>3</sup>/<sub>16</sub>"

Maximum 1<sup>9</sup>/<sub>16</sub>"

Minimum 1/<sub>8</sub>"

**C724 Imprint**

(Shown with fixed brass die plate engraving area.)

**Model C724L-E**

(To order without clock face ask for C724)

Size: H-7<sup>3</sup>/<sub>8</sub>" W-7<sup>1</sup>/<sub>4</sub>" D-10<sup>1</sup>/<sub>8</sub>"

Weight: 28 lbs.

Finish: Taupe Hammertone

Power: 115 VAC, 60 Hz

Throat Depth (edge of paper to top of printed number):

Standard 1<sup>3</sup>/<sub>16</sub>"

Maximum 1<sup>9</sup>/<sub>16</sub>"

Minimum 1/<sub>8</sub>"

VAN-E imprint 003353

VADN-E imprint 003353 MAR 22 82

**Model VAN-E and VADN-E**

(Vertical print units for impressions perpendicular to edge of document).

Size: H-7<sup>1</sup>/<sub>4</sub>" W-10" D-6<sup>3</sup>/<sub>4</sub>"

Weight: 24 lbs.

Finish: Taupe Hammertone

Power: 115 VAC, 60 Hz

Throat Depth (edge of paper to first character of imprint):

Standard 3/<sub>4</sub>" VAN-E 3/<sub>8</sub>" VADN-E
